SHOT AT KING

Bullet Missed Its Mark and Man Was Arrested.

Leopold of Belgium Had a Narrow Escape Today--People Indifferent--No Excitement Created by the Attempted Murder.

Brussels, Nov. 15—An attempt to assassinate King Leopold was made today after religious service held for the late Queen Marie Henriette. His majesty had just left the cathedral when a man in the crowd was seen to draw a revolver, aim at the King and blaze away. The King was unhurt and the man was arrested. There was a big crowd about the cathedral at the time but the feeling against the King because of his treatment of the late Queen was plainly shown by the utter indifference with which they took the attempt to kill him. Instead of excitement there was but murmuring and the remark: "It would have served him right if he had been hit." was heard repeatedly.

The would-be assassin is not thought to be an anarchist. It is thought he is insane and desirous of avenging Leopold's indifference and insults to the late queen. Bystanders say that when he fired the shot the assassin exclaimed: "Take that, you reprobate." After the attempt on the life of the King, Leopold and his escort hurried away. The attempt to raise a cheer was a miserable failure.

The man says he is an Italian, and that his name is Genora. When asked why he shot at the King he replied because there was so many people about him covered with gold. He refused to answer other questions.

Investigation shows that the cartridges were not blank for one bullet crashed through the window of the carriage of Count Doultremont, grand marshal of the palace, who narrowly escaped being hit. The police used no tender devices in getting Genoro away. They practically dragged him through the crowd. Genoro is in a half starved condition. He says he has been without work and has had no food for several days.

HAWAII OFFICIALS STEAL

Treasurer Admits Shortage of $17,950 and Chief Clerk Also Is Wrong but Name of Each Is Wright.

Washington, Nov. 15—Official reports on defalcations by two prominent officials of the Hawaiin Government have been received by the Secretary of the Interior from Governor Dole. William H. Wright, the Treasurer of the Territory, admitted that he was $17,950 short and B. H. Wright, Chief Clerk of the Department of Public Works of Hawaii is charged with embezzlement of $8,272. The former escaped on the steamer Alameda, which sailed from Honolulu September 24 for San Francisco, and has not been found, but the latter was arrested and held for trial this month.

BOSTON

Police Now Believe That Perry the Colored Man Had no Accomplice In Crime.

Boston, Nov. 15—Investigation by the police convinces them that Perry had no accomplice in the murder of Clara Morton at Waverley.

Carl Johnson, a negro was arrested on suspicion of having been concerned in one or more of the assaults committed by Perry. Johnson claimed to have been a confederate of Perry but he changed his story after a few hours' sleep and said that he had been lying. Perry says he never heard of him.

Hungate Arrested.

Painesville, O., Nov. 15—Frank Hungate, until recently pastor of the First Baptist church here was arrested today charged with performing a criminal operation on Phoebe McKeowan, a 17 year old girl who lived in his house as a servant. Suit was also brought against him for $10,000.

FOR EXTORTION

New York, Nov. 15—Henry C. Wilson, chief clerk at army headquarters here and Dr. E. T. Whitmore, his friend, who were arrested last night for alleged extortion were held in $2,500 bail today for examination Monday. Wilson and Whitmore were trapped into taking $4599 from Water Front Improvement company after they had demanded that sum for possible government favors. The company notified the police and detective McConville representing himself as treasurer of the company met the men and paid them in marked bills. Then he arrested them.

Al. G. Field, the minstrel, who has been ill, leaves Mobile Ala., today for Columbus, O., almost cured.

GAS FLOW

STRUCK AT DEPTH OF 650 FEET AT UTICA.

Biggest "Pocket" Yet Found—The Pipe Has Arrived for the Coshocton Line.

Utica, O., Nov. 15—Great excitement was caused here Friday afternoon when a flow of gas estimated at 4,000,000 feet a day was struck on the Vance place at the edge of town at a depth of 650 feet. Drillers say it is unprecedented to find such a "pocket" of gas at so slight a depth.

The gas threw mud and stones hundreds of feet and as several torches were burning nearby fear of an explosion was felt but the torches were quickly extinguished. Today the well shows only half the pressure of yesterday and the drillers hope to resume work Monday.

This well is being put down by the Central Ohio company. Wm. Vance paid $60 for the strip of ground where the well is located and he is now getting $200 a year rent for the ground—a pretty fair investment.

Thirteen car loads of pipe came yesterday for the ten inch pipe line to Coshocton, Dresden and seven other towns. The Utica company composed of 100 people will supply gas. The outlook for the Licking county field is very bright.

The May wheat deal, now being engineered by Armour at Chicago, promises to develop into one of the greatest corners since the famous Leiter deal. Armour now has the market completely at his mercy and short traders are in a quandary. The uncertainty of the market is so great that they fear to buy or to sell their little holdings while pale into insignificance when compared with the ten million bushels held by Armour.

CHOKED

To Death by His Tongue, Which Was Forced Into His Threat by False Teeth.

Lewiston, Mass., Nov. 15.—Burnside Long of Lynn, Mass., died in the city prison by choking, his false teeth having wedged against his tongue, forcing it down his throat. Long was found on the street Monday morning suffering from alcoholism. He was taken to the station, and had been under the care of a physician.

He was rapidly recovering and was feeling much better. He took a drink of water, threw his head back, then placed his hands to his face and almost immediately fell over backward. An officer saw that he was breathing hard and called a physician, but the man died before the doctor arrived.

The latter said the man had died of strangulation, caused by the false teeth forcing his tongue into his throat. The teeth had to be removed by a pair of nippers.

SEVEN

White Men Are Held Captives By Savage Indians.

Los Angeles, Cal. Nov. 15—According to Jas. McEwen of Hermosillo, Mexico, now visiting here, seven white men are held prisoners on Tiburn Island by savage Indians. M'Ewen's information is an Indian who is employed on his ranch. Among the prisoners are believed to be Lieut. P. E. L. Robinson, a man named Logan of Cleveland, O., and Capt. Potter of Santiago, who went to the island about ten years ago and never returned. It has been generally believd that they were massacred and eaten by Indians after their capture.

TOTAL VOTE

Will Not Be Announced Before Monday Says Secretary of State Laylin.

The Advocate's Columbus correspondent telegraphed at 2:30 this afternoon that the total vote for Secretary of State will not be announced before Monday.

Pike county is still out and Secretary Laylin says if it is received late this afternoon it will not be opened until Monday.

CONDENSED NEWS.

Grief over his wife's death drove Jno. Odin, 52, of Chicago to suicide.

A race riot is feared at Kingwood, Ga., because of the murder of J. L. Youngblood by a negro.

The entire city council of Denver will be arrested today, according to Judge Mullins, whose injunction the members of the municipal body ignored.

A bear weighing 235 pounds was shot by the Roosevelt party near Smedes, Miss., Friday, but to the whole party's regret the trophy did not fall to the President's Winchester. One of the newspaper men tried to bribe a negro to show him the way to the President's camp, offering $25. "Deed, mistah," responded the negro, "I wouldn't take you out there for a million dollars. Mistah Mangum told us any of us who took white men there would be shot or hung, and I ain't goin' to take no chances."

There were fierce times among the big gamblers on Wall street Friday, the bears having all the best of it. Prices went to pieces. Demoralization reigned in Wall street by the unexpected slump in leading stocks. Harriman wrested control of the Southern Pacific from the Keene syndicate.

Carrie Nation, loaded with hatchets and sermons, tried to convert Harvard undergraduates yesterday. Her success was nothing to brag about, but the students enjoyed the visit.

MOLINEUX

HAS $200,000 OF HIS FORTUNE LEFT

Son Will Now Go to Work and Help His Father to Recover the Money Spent.

New York, Nov. 15—The cost to Gen. Molineaux of the defense of his son will be just about $100,000. The son at the time of his arrest, had a salary of $75 a week and he had little or nothing put by. Gen. Molineaux has borne the burden himself. He has received many offers of assistance, from strangers as well as from friends, but he has declined them all.

"When he has paid all the bill," a friend of his says, "he will have left, or rather he and his wife will together have not more than $200,000. When he has passed 70 years, it is a body blow to have $100,000 taken right out of a life's accumulation, but not a word of complaint has the General uttered.

"Now, after a little play-spell with the boy he has restored to him, Gen. Molineaux purposes to go back to his factory and his colors and get about reimbursing himself. Only last night in speaking of this very thing, he said: 'Well, I must go to work again pretty soon.' To this somebody rejoined that he'd done enough hard work and that he'd better rest for the remainder of his days.

" 'Nonsense' he exclaimed, you seem to think I'm an old man. I want you to understand, sir, that I'm a young buck yet."

"And what of young Molineaux?" was asked.

"Of him I can do no better than to repeat what he said the other day in the tombs. The trial was near its end and he said:

" 'Pretty soon I shall be able to go out and see what the world looks like to a free American citizen. It will take little time, I suppose, for me to pull myself together, and then I want to go to work. I could never repay the governor for what he's done for me. But I shall feel that I've done something if I can earn enough to pay back some of the money he's spent and if I can make his latter years easier and happier because of something I may do.'

"Young Molineaux, you know is like his father, an expert color-maker. But he's a very poor chemist. It is quite possible that he may go to work in his father's factory. That is to be decided later. For the present, he and his wife will continue to reside with Gen. Molineaux, but later they will set up for themselves."

Youn, Teddy Ill.

New York, Nov. 15.—A private car with "Teddy" Roosevelt Jr., and two physicians on board passed through here this morning on the way to Washington. The boy is said to be ill again this time with eye trouble.

Goes To The City.

Columbus, O., Nov. 15—In an opinion Attorney General Sheets holds that fines collected under the Beall local option law shall be paid to the municipality where the offense was committed and not into the treasury of the county. The question arose in cases in Belmont county.

MOUNTAIN TOP

To Be Blown Off—250 Tons of Powder Will Be Exploded at One Shot.

Redding, Cal. Nov. 15.—The Mountain Copper company is considering a novel method for opening up the famous Iron Mountain mine. In order to overcome the fires burning in its ore beds, it is proposed to explode 250 tons of powder at one shot and blow off the top of the mountain. If done it will be touched off about New Year's.

With the work accomplished it will be possible to work the property in the open and not be troubled by the fumes of burning ore in the many tunnels that penetrate the mountain.

MORGAN

Senator From Alabama Says President Roosevelt Will Be Defeated.

Washington, D. C., Nov. 15—Senator Morgan of Alabama, who is now here, says it is his belief that if the Republican party nominates Theodore Roosevelt in 1904 the chances of the success of that organization will be diminished.

I do not think that Roosevelt can win," he declared. "I do not believe the wiser heads of the Republican party want him as the nominee. The trouble is they can't keep him where they can rely on him. Every now and then he backs and runs off. They have to lasso him and haul him back. We will beat Mr. Roosevelt if he is nominated."

Upon the subject of the reported intention of the Republican party to reduce representation from the South in future Republican National Conventions, and lso in the House of Representatives, the Senator said:

"I think President Roosevelt is concerning himself just now solely with the question of representation from the South in the Republican National Conventions. I think the indignities which Mr. Roosevelt has been heaping upon the white Republicans of Alabama and elsewhere in the South are certain to precipitate trouble in the next Republican Convention. Mr. Roosevelt's appointments in that state are not going to captivate the white Republicans of the South. I express my sympathy with the white Republicans of the South, and believe that the whole race question will be projected into the next Republican National Convention.

RESCUE WORK

BEING CONDUCTED BY W. C. T. U. WOMEN

Mother Prindle Will Speak in Two Churches Sunday—At the B. & O. Shops Tuesday.

That Mother Prindle, who has been in the city for some days, engaged in rescue work, is accomplishing great good, has already been demonstrated. The White Ribboners under the direction of Mother Prindle and Mrs. A. H. Sisson, the State Superintendent of Rescue Work, have done considerable practical work during the past two days in the rescue of lost girls. On the first day they succeeded in winning two girls who have promised to lead different lives. On the second day they found two girls who would be glad to enter a home had Newark one. It is the idea of Mother Prindle and the White Ribboners to establish a home for lost women in Licking county, under the auspices of the Florence Crittenden chain of homes, of which there are 55 in the United States and 3 in foreign countries.

On Wednesday Mrs. Prindle, accompanied by a number of the ladies of the W. C. T. U. visited the County Jail, where they found six men and two boys. Short religious services were held.

Friday night Mrs. Prindle attended a parlor social and reception for new members at the home of Mrs. Jones, the President of the W. C. T. U. in Granville, and delivered an address.

This morning a meeting was held at the Adventist church, which was addressed by Mother Prindle.

Sunday morning at 10:30 Mrs. Prindle will deliver a short sermon at the First M. E. church, closing with a talk on rescue work. In the evening she will be at the Fifth Street Baptist church, where she will talk on "Rescue Work."

On Tuesday at the noon hour the W. C. T. U. will unite with the Y. M. C. A., and with Mrs. Prindle will visit the B. & O. shops, where Mother Prindle will talk.

Charles J. Swanson, a Minneapolis manufacturer, on his silver wedding anniversary gave to each of his nine employes, who had been with him for 20 years, a deed for 40 acres of improved land in Anoka county, Minnesota.

JOHN MITCHELL

Was Today Subjected to a Rigid Cross Examination.

If Miners Would Incorporate Formal Recognition of Union Would Not Be Improbable--Wages Should Be $600.

Scranton, Pa., Nov. 15.—President John Mitchell of the United Mine Workers was again subjected to a rigid cross examination by counsel for the operators this morning when he took the witness stand to continue his testimony before the coal commission. His exhaustive examination yesterday and the questions put to him today clearly indicate the main issue is the recognition of the union. This issue had been brought so prominently to the front that the question of wage scale and other demands have been forgotten for a time. The desire to thrash this question out at the beginning is mutual between miners and operators. Mitchell while not outwardly declaring for recognition of the union, placed himself on record that contract relations between the operators and the union would be a means of effecting in the future a settlement of all difficulties which might arise. Mitchell, moreover, showed that the miners' union was a responsible organization which held that trade contracts were inviolate even when they might conflict with the constitution of the union.

David Wilcox, counsel for the Delaware and Hudson company, lost no time in taking up the question when he began his cross examination and he sought to point out weakness in the union. His examination was along the line of the attitude of the miners' organization toward boycott and violence during strikes, and non-incorporation of the union. Wilcox's examination was by no means bitter and it was stated in the court room this morning that if the United Mine Workers would incorporate and pass constitutional laws guaranteeing the sanctity of trade contracts, a formal recognition of the organization by the operators would by no means be a remote probability.

Speaking of pickets during the strike Mitchell said that "locals or mass meetings of miners frequently ordered them on duty. Asked what he thought was a living wage for a coal miner, Mitchell said that not less than $600 a year. This, he said, would enable a miner to give his children a common school education. Mitchell said that under no circumstances should a child under 14 years be permitted to work in the mines. Counsel Wilcox here read the law of this state regarding the children in the mines. Wilcox showed that these laws were more stringent in the anthracite field. Mitchell admitted that many breaker boys under 14 years were giving material support to their families and also that if the age limit was raised to 14 years, it might have caused some hardships. This, said Mitchell, did not alter his opinion that a boy should have a good school education and that he should not be allowed to work before his fourteenth year.

ARMY CANTEEN

Its Advocates are Reinforced by Reports of Staff Officers In the Philippines--Gen. Sanger's Strong Recommendation.

Washington, Nov. 15.—Advocates of the restoration of the canteen in the army find their position considerably reinforced by reports of staff officers in the Philippines made public by the war department today. These reports all of which condemn the present arrangement as detrimental to the army will be used by the secretary of war in his argument to congress this winter for the repeal of the prohibition feature.

General Sanger says of 130 companies in the Philippines 90 to 100 per cent of the enlisted men used stimulents before entering the army and as they can't get beer at canteens they drink the vile native concoction "Vineo." He says 5 per cent of the 307 soldiers sent home insane were made so by the vile native drink. He strongly urges a revival of the canteen.

MOTIVE

For Suicide of Agent Strauss is Unknown—His Successor Murdered In 1897.

Danville, Nov. 15.—W. T. Strauss, Cleveland, Akron and Columbus agent at Kilbuck, committed suicide Friday by shooting himself in the head. He performed the deed in an upstairs room while his wife was preparing breakfast.

Strauss had been in a cheerful mood and no cause is given for his taking his life.

Strauss' predecessor, F. A. Pennorwood, was murdered five years ago Friday. No clew was ever found to the murderer.

THE RAILWAYS

DIAMOND RING PRESENTED TO MR. BRENNEMAN

Who Leaves the City to Accept Another Good Position—Local and General News of Railways.

Mr. H. M. Brenneman, who for some time past has held the important position of division master mechanic of the Baltimore and Ohio railroad, with headquarters here recently resigned to accept the position of Assistant Superintendent of Motive Power of the Chicago, Milwaukee and St. Paul railroad, with headquarters at West Milwaukee as previously announced in the Advocate.

His associates here in the B. & O. shops determined to give him an appropriate testimonial of their esteem and their regret at his departure. Accordingly they surprised him on Friday evening in a most complete and agreeable manner. He was notified by a committee that he was wanted in his office at 6 o'clock on Friday evening. Repairing to his office about that time he was requested to come to the carpenter shop. Arriving there he found that the shop employes, to the number of over five hundred had assembled. They had erected a temporary platform at one end of the shop, and when he stepped upon it as he was requested to do, he was greeted with hearty cheers from the large crowd.

Mr. Timothy F. Gorman, the well known foreman of the B. & O. machine shop, then approached Mr. Brenneman and in a very touching and eloquent speech expressive of the feeling of the shop men for him, presented him an elegant diamond ring, valued at $100.

Mr. Brenneman who was greatly surprised and almost overcome by this unexpected token of regard, responded briefly and in a very touching manner. He assured the shop men that any success he might have accomplished here had been largely due to the kind and loyal support they had given him.

Mr. Brenneman succeeded W. S. Haines on July 1, 1901, as Division Master Mechanic at this point. Mr. Haines having been promoted to the position of Superintendent of Motive Power to succeed F. W. Diebert, deceased.

Mr. Brenneman leaves Newark on No. 47 tonight to assume his new duties at Milwaukee. He will be followed by the best wishes of his numerous friends for all possible success in his new field of labor.

Mr. Brenneman will be succeeded by Mr. J. Dahlman, formerly of the C. & A. C. R. R., of Mt. Vernor, on Dec. I. Mr. Dahlman comes highly recommended and will doubtless be a valuable acquisition to the B. & O.

Changes on B. & O.

W. B. Poland division engineer of the Pittsburg division of the B. & O. has just been appointed superintendent of the Indiana division of the B. & O. S. W., at Cincinnati. A W. Thompson of the Cumberland division is transferred to Pittsburg and R. R. Lugens succeeds Mr. Thompson as division engineer of the Cumberland division.

WANT BETTER WAGES.

Indianapolis, Ind., Nov. 15.—The switchmen in the employ of the Big Four railway met with General Superintendent VanWinkle last night and submitted a request for increased pay. They based their demand on the fact that railroads are enjoying general prosperity and are therefore able to pay their employees better wages. The belief is that a small increase will be granted by Mr. VanWinkle because of the recognized fact that the cost of living is higher.

THE FAIR

West Main Street Store Now Occupies Two Rooms Filled With Choice Goods.

Three years ago. Mr. A. Schiff started in business on West Main street between Third and Fourth streets in one small room, his stock of goods being small, but his stock of energy being very large.

He named his store "The Fair," and aimed constantly to make the store what its name implies. That he succeeded is abundantly proven by the fact that Saturday he opened his large new store, occupying the two big west rooms in the Wehrle block, in which is gathered one of the largest stocks of granite, tin, wooden, china and crockery ware ever seen in Newark.

A corps of accommodating and painstaking clerks are at hand to minister to the wants of any who come into the store, and we predict that "The New Fair" will be very successful.

WEDDING

Of Miss Delia Hughes and Mr. Nicholas Youse in Mary Ann Township Thursday.

On Thursday at the home of Mr. and Mrs. Richrd Hughes in Mary Ann township, in the presence of about thirty guests, there occurred the marriage of their daughter, Della, to Mr. Nicholas Youse. Precisely at twelve. Mrs. Laura Hall began playing the wedding march and the wedding party composed of the bride and groom and attendants. Misses Addie and Nellie Hughes and Avie Hughes and Ora Pound of Newton Chapel, took their places beneath a bower of white chrysanthemums, and the ceremony, which united two loving hearts, was performed by Rev. Mr. Hickman of Newton Chapel. The bride was handsomely dressed in mauve cloth trimmed with white ribbon and lace, and carried bridal roses. The bridesmaids wore pink and blue, and carried pink and white carnations. The groom wore the conventional black. After the congratulations, an elegant dinner was served Mr. and Mrs. Youse will settle at Blue Jay. The bride received many beautiful and useful presents. Among the guests from a distance were Mrs. C. Youse and Miss Bessie Parr from Blue Jay, Mr. and Mrs John Lamaich and daughter, Helen, and Mrs. Gahn of Newark, Mr. and Mrs. Penn, and Mr. Ora Pound.

Brakeman P. H. Murphy, after a short leave of absence, has reported for work.

FOOT BALL ..AND.. OTHER SPORTS.

TODAY'S FOOTBALL GAMES.

The annual championship football game between Yale and Princeton, is being played at Princeton this afternoon before a record breaking crowd. It was announced before the game that both teams were in the best possible shape and each hoped to win.

The other game that it attracting much interest in Newark is the contest at Minneapolis between Minnesota and Wisconsin. Of course the Michigan and Chicago game is drawing its share of attention.

Locally boot hill interest centers in the Wooster-Denison game at Granville, which is being played before a good crowd, including many Newark people.

Others interested in the sport are at University Field, Columbus, viewing the O. S. U.-Illinois game.

Mr. U. O. Stevens of the East Side, will get telegraphic reports of the result of the principal games.

GANS BESTS SIEGER.

Baltimore, Md., Nov. 15.—"Joe" Gans, the light weight champion, got the decision over "Charley" Sieger of Hoboken, Friday night before the Eureka Athletic club. The colored champion was called upon to do some very hard work to best the Hoboken boy who was no match for Gans in sparring or ring tactics. Gans blocked many vicious swings but found that Sieger was capable of taking a remarkable amount of punishment.

After two hours of fiddling the men went at each other hammer and tongs and Sieger appeared very groggy at the end of the third from right and left swings to the jaw. At each succeeding round thereafter, Sieger appeared to be about all in at the sound of the gong. In the tenth Sieger went down from right swings to the jaw, took the count and was saved by the gong. In the eleventh Gans landed fourteen right swings to the jaw, any of which would have put an ordinary man down and out. The plucky Italian down three times during the round, but after taking the count on each occasion came back smiling, ready for more punishment. He came strong in the twelfth and thirteenth and managed to hold his own, although being put to the mat in the later round. The champion rushed him in the fourteenth and had him down and practically out in one minute and twenty-five seconds. His seconds threw up the sponge to save him.

This signature is on every box of the genuine Laxative Bromo-Quinine Tablets the remedy that cures a cold in one day

DOCTOR, I CANNOT SLEEP

Do you go to bed to tumble and toss? To think until your brain grows weary? Do you in desperation get up and read or walk about until exhausted nature gives you an hour or two troubled restless sleep? Sleep that does not rest. Do you know that the remedy is at hand? Do you know that every day hundreds of just such cases are cured by Dr. A. W. Chases's Nerve Pills? A medicine that does not quiet the nerves and give sleep by the opiate plan, but by the common sense system of nourishing the nerves, of quieting and steadying them through its magnificent tonic and stregth-giving powers—the only rational, sensible way.

East Church Street.

Mrs. J. Brennanof No. 70 East Church street, Newark, Ohio, says: "One of the family was fearfully nervous, was weak and could not sleep—a nerve tonic was badly needed and we used a box of Dr. A. W. Chase's Nerve Pills we got at C. T. Bricker's City Drug Store and they acted finely, steadied the nerves, gave restful, natural sleep and general strength. We prize the medicine highly."

◈ ◈ ◈

The Monday Talks will meet November 17th with Mrs. John Tucker, instead of with Mrs. Benj. Franklin.

RREMARKABLE SUCCESS.
Of a New Catarrh Cure.

A large and constant increasing majority of the American people are catarrh sufferers. This is not entirely the result of our changeable climate, but because modern investigation has clearly proven that many diseases, known by other names, are really catarrh. Formerly the name catarrh was applied almost exclusively to the common nasal catarrh, but the throat, stomach, liver, bladder, kidneys and intestines are subject to catarrhal diseases as well as the nasal passages.

In fact, wherever there is mucous membrane there is a feeding ground for catarrh.

The usual remedies, inhalers, sprays, douches or powders, have been practically failures, as far anything more than temporary relief was concerned, because they simply dry up the mucous secretions, without having the remotest effect upon the blood and liver, which are the real sources of catarrhal diseases.

It has been known for some years that the radical cure of catarrh could never come from local applicatons, but from an internal remedy, acting on the blood and expelling the catarrhal poison from the system.

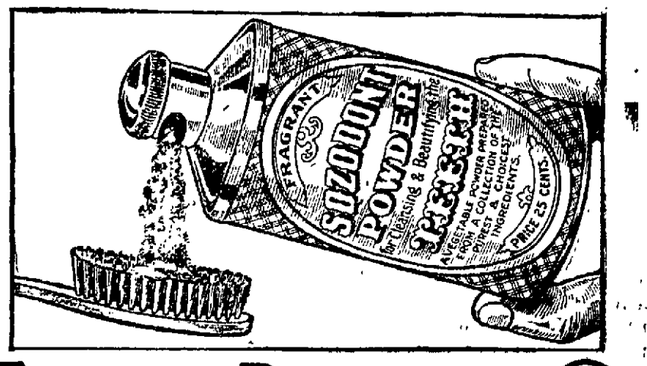

A new internal preparation which has been on the market only a short time, has met with remarkable success as a genuine, radical cure for catarrh.

It may be found in any drug store, sold under the name of Stuart's Catarrh Tablets, large pleasant tasting lozenges, composed principally of antiseptic ingredients, Bloodroot, Red Gum and similar catarrh specifics.

Dr. Ainslee in speaking of the new catarrh cure says: "I have tried the new catarrh remedy, Stuart's Catarrh Tablets, upon thirty or forty patients with remarkable satisfactory results. They clear the head and throat more effectually and lastingly than any douche or inhaler that I have ever seen, and although they are what is called a patent medicine and sold by druggists, I do not hesitate to recommend them as I know them to be free from cocaine and opiates, and that even a little child may use them with entire safety."

Any sufferer from nasal catarrh, throat or bronchial trouble, catarrh of the stomach, liver or bladder will find Stuart's Catarrh Tablets remarkably effective, pleasant and convenient, and your druggist will tell you they are absolutely free from any injurious drug. 12-15-20 22

HALL & RUCKEL, New York.

It has come to pass in the past few years where women's clubs and afternoon receptions have held sway that men have almost forgotten that they are also social creatures, but on Friday evening they were recalled in a most delightful manner to society's ranks. The ladies gave a dance at Brennan's Hall on Wednesday evening, the gentlemen being their guests.

The hall was tastefully decorated with palms and Chinese lanterns, and card tables were provided for those who did not dance. Marsh's orchestra furnished excellent music, and a delicious supper was served. The patronesses were Mrs. Jackson, Mrs. Goldsborough, Mrs. Updegraff, Mrs. Anne Black, and Miss Stanberry.

Among those who were present were Mr. and Mrs. Charles Smith, Mr. and Mrs. Altshool, Mr. and Mrs. Charles Miller, Mr. and Mrs. Walter Scott, Mrs. Helen Franklin, Mr. and Mrs. Robert Smith, Mr. and Mrs. Fred Black, Mr. and Mrs. E. H. Everett, Col. and Mrs. Gillett, Mr. and Mrs. Harry Swisher, Mr. and Mrs. Gardner, Mr. and Mrs. Fred King and Mr. Kelley, Mrs. Smucker, Mrs. Graham and Mrs. Moore, Misses Helen Goldsborough, Ema Heisey, Lucy Blood, Ada Follett, Lucille Harington, Lillian Latimer, Ida Moore, Shirley Pitser, Esther and Josephine Veach, Ema Woodbridge, Jessie and Ann Fulton, Ada Beecher, Edith Gorby, Edith Ickes, May Hale, and Messrs. George Heisey, Robert Fulton, Dr. Reeves DeCrow, John Franklin, Ned King, Charles Matthews, Paul Maylone, Paul Franklin, Parr Dole, Fred Scott, Howard Jones, Joe Miller, Fred Mosteller, Otto Meyer, Will Foos, Fred Gleichauf, Sam Browne, Frank Webb, Charles Magruder.

T. S. Briggle has accepted a position as brakeman on the B. & O., and has been assigned to duty on the C O. division.

AMUSEMENTS.

Hilda Thomas is said to have scored complete success in her new play "The Fisherman's Daughter," a new scenic comedy drama, telling a breezy story of life on the Cape Cod coast. Miss Thomas appears as "Maggie Manley", the daughter of a rough but honest and well-meaning old sea captain and the character is remarkably well-fitted to her peculiar talents. She is supported by an excellent company, including "Lou Hall," a droll comedian who never fails to make a hit. "The Fisherman's Daughter," will be seen at the Auditorium tonight.

Spotless Town Monday.

The tremendous success achieved by Gus Hill's comedians in Whitcomb Reily's farce "Spotless Town" has induced Mr. Hill to almost double the population in that interesting town. The census is now almost fifty people who display their versatility and genius in three acts of hilarious comedy. The uproarious situations will not bring a blush to the cheeks of even the most fastidious, yet its action is grotesque, its situations hilerous and its climaxes of the most intense laugh-producing nature. Its absurdities will appeal to everyone who has had a fit of blues, and its quick wit and all pervading merriment will give to its beholders one of the most pleasant evening entertainments that they have ever beheld. Beautiful and exquisite costumes of most attractive design will be worn by the chorus of pretty girls. The staging and mounting will be magnificent. Spotless Town will be presented for th first time in this city on Monday night Nov 17 at the Auditorium.

Missionary Society.

The Ladies Home and Foreign Missionary society of the First Presbyterian church was pleasantly entertained yesterday afternoon at the home of Mrs. Vance, 192 Tenth street, and the following program listened too.

Devotional exercises—Mrs. S.E. Coggins.

Business.

Paper—The Mormons—Mrs. David Walker.

Vocal Solo—Mrs. Chas. Kreeks.

Paper—"Persia and its people"—Mrs. H. H. Leist.

Piano solo—Miss Kate Vance.

Piano solo—Mrs. Wilcoxin, Coshocton, Ohio.

The Ladies Home and Foreign Missionary Society of St. Paul's church held a very pleasant meeting on Thursday afternoon. The meeting was opened by reading part of the second chapter of Philippians and the singing of the hymn "My faith looks up to Thee." The following program was carried out:

A reading by Mrs. Patterson, subject, "Her Tithes;" second reading by Mrs. Beckman, "Loyalty;" report of delegate, Mrs. Lida Coon, of the convention held at Springfield. One new member was received. Refreshments were served, after which the society adjourned to meet the second Thursday in December.

The H. G. Dodd's 5 and 10c store is a strictly 5 and 10c store. Opening day Wednesday, Nov. 19. No. 7 West Side Square. 15-2t

A STARTLING SURPRISE.

Very few could believe in looking at A. T. Hoadley, a healthy, robust blacksmith of Tilden, Ind., that for ten years he suffered such tortures from Rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes, "and I have not felt a twinge in over a year." They regulate the kidneys, purify the blood and cure Rheumatism, Neuralgia, Nervousness, improve digestion and give perfect health. Try them. Only 50c at Hall's drug store. 11

PIANOS, PIANOS.

Have begun to arrive and if you want to save some money on first qualities of pianos be sure and call at 27 West Main street and investigate. There are pianos personally selected by our buyer while in the east and fully guaranteed by us. On cash or easy payments.

MUNSON MUSIC CO.

FUNERAL—Mrs. Bertha E. Baird will be buried from the Hanover Methodist church Sunday morning at 10 o'clock.

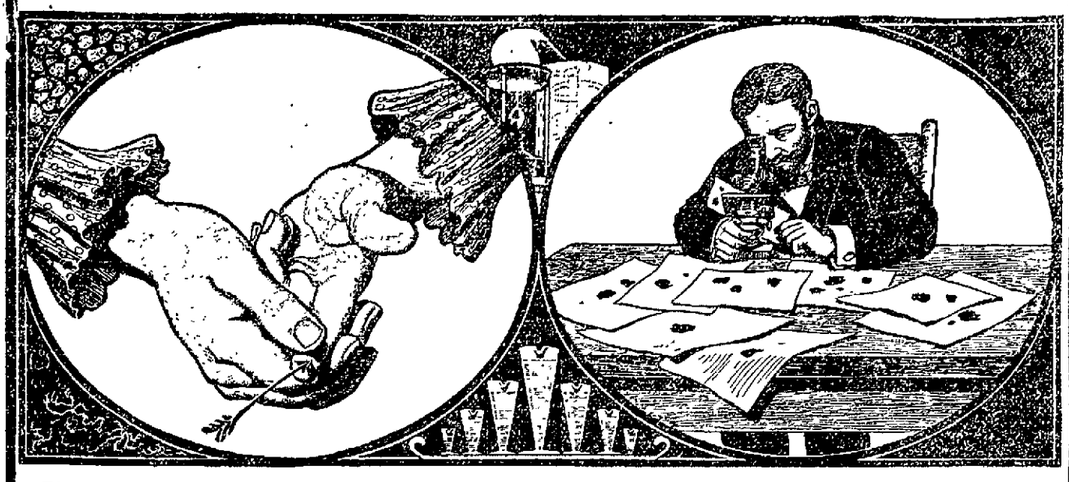

$100 REWARD. $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

FREE BLOOD TEST

One Drop of Blood Under the Microscope Tells What Disease You Have. Everybody Should Take This Examination and Learn the Truth About Their Health.

Place one drop of your blood (see above cut) **on a small piece of special** chemically prepared paper, send it to us, we will have it examined by our expert bacteriologist, and whatever germs of disease your system contains will be revealed under the powerful microscopic lens.

Every disease shows itself in the blood. It doesn't matter what it is, particularly if it's a germ-bred disease; you'll find it in the blood. Consumption germs float through the blood. So do cancer germs. As easily can you detect kidney diseases, rheumatism, eczema, scrofula, and many, many other diseases that are often very deceiving. Germs that create the diseases which take human lives are small, so infinitesimal that millions upon millions occupy a space scarcely perceptible to the naked eye. These little, living demons, some resembling spiders, others snakes, lizards, centipedes, tarantulas, are transported from one part of the system to another—the same as a river carries driftwood from one bank to another. When they come in contact with a particularly weak spot they cling to it, and, presto! you're in their grasp. They gnaw away the flesh and delicate membranes and tissues as a beaver eats away a tree—causing it to fall and die. The average person scoffs at weaknesses and the thought of germs, because he does not know what germs are, what they do, how they collect, and how to get rid of them. We recently read in the daily papers accounts of hostile Filipinos capturing natives who were friendly to Americans and tying them to ant hills to be devoured by these ravenous insects. Swarms of these ants will attack a piece of meat, and in a remarkably short time devour every particle of it, leaving the bones clean and white. While this is not a pleasant reflection, it nevertheless describes correctly the working of disease germs. They swarm in myriads to a weakened lung, to an oozing sore, to a disordered kidney, and to other organs of the body, and unless interrupted in their work by powerful medicines which kill them and eject them from the system, they tear down and devour the very vitals that we want most to protect. The surest and absolutely never-failing way to tell what kind of germs are in the blood—hence what kind of disease one has, or may be going to have, is to look at these little assassins, and see just what they are. The powerful glass in the hands of an expert never lies. When you know precisely what ails you, then you know how to treat it intelligently. Many people go blundering along in the dark, taking this thing and that for disease, sometimes striking it, but more frequently missing; then wonder why the medicine which cures pains in the chest doesn't cure them of consumption, when perhaps all that causes those pains in their case is indigestion. Many diseases have similar symptoms. The only sure way to detect disease is to examine at the foundation, and not depend too much upon symptoms. Every one can know precisely what disease they have by having their blood tested, and this test is free to everybody. "Blood Wine," the leading medicine of today, has from the moment of its discovery led the way in the general overthrow of disease merely because it treats disease in an entirely new way. The principle upon which "Blood Wine" works is to abstract from the blood the poisons that stagnate the system, and to cause each organ to perform its work. People that are diseased have some—frequently several—organs that are inactive. This medicine arouses them, in keeping with nature. It is not a temporary stimulant. It is not a narcotic, or a deadener of pain or feeling. It acts in the system as steam does in an engine. It furnishes energy, supplies fuel, and draws out of the blood the germs from every nook and corner. The makers of "Blood Wine," in order that everybody may have a chance to know scientifically what flows through their blood, have arranged with an eminent physician and bacteriologist—a man skilled in all the phases of bacteriology, who can tell at a glance at their blood the state of one's general health, the prospects for recovery, or the chances of early death: just what should be done to destroy the germs, and what should be done to rebuild the weakened tissues

This is the

First Time in History of Science

that any proprietary concern has ever extended broadcast to everybody the privilege of a thorough microscopical examination of the blood. Heretofore such a thing was unheard of outside of a large city hospital. To have such a test made required time and expense, and but few people in the United States have ever been capable of making such an analysis. You've heard of examination of the urine and the hair, but never of the blood by mail. Don't let this opportunity escape—you may never have another such chance. Give it your immediate attention and mail your letter today.

Read the remarkable testimonials voluntarily awarded to "Blood Wine." Read this one: Mr. John E. Foster of Manchester, N. H., speaks as thousands of others speak. It's hard to question the merits of an article when thus endorsed:

"'Blood Wine' is truly a most remarkable medicine. In my case its work has been little short of a miracle. For some time I suffered with Rheumatism, of a most painful and advanced type. I tried about everything, without relief, and expected the same result from 'Blood Wine,' but fortunately for me, when I struck 'Blood Wine' I struck the Rock of Gibraltar. It stood my severe test and conquered my Rheumatism, and today I am a well man, due wholly to this great medicine. To my mind there is absolutely nothing' that will compare with it, and I have no hesitancy in advising any one in ill health to give it a thorough test."

Follow These Directions.

Go to your druggist and ask for one of the "Blood Wine" booklets, which contains a sheet of specially prepared paper upon which you are to press one drop of your blood to be forwarded to us. It contains full instructions just how to get the blood, where to take it from, and full particulars. If your druggist doesn't have the booklet, send us your name and we will send you one free of charge. Address Supt. Bacteriology Dept., Louis Dandelin Co., makers of Blood Wine, Worcester, Mass.

Bad Stomach Trouble.

Mr. Benj. Sunnenberg of 202 W. 43d St., New York, was troubled with an awful case of dyspepsia. He couldn't eat, couldn't sleep and suffered untold agonies. Read his report: "I suffered so long and so severe with stomach trouble that I became a living wreck. I had no strength or vigor, and little ambition. 'Blood Wine' was recommended to me and I took four bottles of it. I am now entirely well and can eat anything. 'Blood Wine' is a grand medicine. Its gentle, laxative qualities will cure a torpid liver."

"Blood Wine" costs fifty cents a bottle.

City Marshal Odlin of Lewiston, Me., who has had a great deal of experience trying to get a medicine that would benefit his father-in-law, after trying a number of things, finally settled upon "Blood Wine." He says: "Some months ago I noticed 'Blood Wine' being advertised as particularly good for aged people, and as my wife's father, Mr. W. C. C. Walton, was suffering from the general infirmities of old age, I got a bottle for him to try. I have never seen anything work so nicely as it did with him. It seemed to brace him right up and he immediately stopped complaining of being all tired out. He swears by it, and wouldn't be without it for anything."

THIS IS TRUE. &

The wise outlay of money is in a permanent home. There the family comes together daily after the stress and storm of life as to a refuge. The possession of a home, however humble, gives one a sense of permanency, of vested rights; awakens public spirit and patriotism and arouses emulation. It is a foundation on which to build, a point from which to advance. Every flower enhances the value of the home and endears it to the heart and memory, hallowed by a tender association, endeared by recollection.

All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

They litter the whole system.

Pimples, boils, eczema and other eruptions, loss of appetite, that tired feeling, bilious turns, fits of indigestion, dull headaches and many other troubles are due to them.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"I had salt rheum on my hands so that I could not work. I took Hood's Sarsaparilla and it drove out the humor. I continued its use till the sores disappeared." Mrs Ina O Brown, Rumford Falls, Me.

Hood's Sarsaparilla promises to cure and keeps the promise.

An Art Palace For Russia.

The committee of advice attached to the Imperial Academy of Arts in St. Petersburg has recently held a meeting to discuss a remarkable project, the erection of a palace of arts, says the New York Commercial Advertiser. The building is intended to contain a home for widows and orphans of artists, an art school, a high school, with choir, workshops for competitors from higher art schools and an enormous hall for a permanent exhibition of Russian art. The total cost of the building, which is to be decorated with the sculptures and pictures of the best artists of Russia, will be about $500,000.

A Novel Discussion.

A discussion is going on in London as to whether the mayors of large municipalities should be paid for their services or not. It is said to be largely by the mayors themselves, who are being attacked by the newspapers. As for the mayors, some English may get paid and some do not.

Kings Daughters Hear Report of Their Delegate to Recent State Convention—Brief Items.

Granville, O., Nov. 15.—The Cup of Cold Water Circle ot King's Daughters of this place, assembled at the home of Mrs. Hiram Partridge, on Cherry street, on Friday evening for the purpose of hearing the report of Mrs. Partridge, who was the delegate from the Cup of Cold Water Circle to the State Convention of King's Daughters, recently held at Bellefontaine. The report of the proceedings of the convention, as read by Mrs. Partridge, was exceedingly interesting. At the conclusion of the reading of the report elegant refreshments were served by Mrs. Partridge, and a nice time was held by all.

The Euterpean Literary Society held an open meeting in Recital hall on Friday evening, and a good program was enjoyed by those who were present.

The Philomathean Literary society omitted its regular meeting on Friday evening on account of the orchestra concert held that evening.

The members of Sigma Chi fraternity very pleasantly entertained a few of their young lady friends at tea on Friday evening.

Dr. Hundley, Coach Stanton, Mr. Flanagan, and the members of the orchestra, who gave a concert in Recital Hall on Friday evening, were guests at tea at Shepardson College on Friday evening.

OVERDOSE

Of Nerve Medicine Taken by Frazeysburg Man Who Had Narrow Escape From Death.

Zanesville, O., Nov. 15—Austin C. Cochran a well known resident of Frazeysburg, was found in a field near his mother's house at Trinway. He had spent the night at his mother's house.

At first it was thought that he had attempted suicide by taking poison, but upon examination this was found to be false.

The physicians administered emetics which had the effect of relieving the sufferer. It has been determined that his illness was caused by taking an overdose of medicine prescribed by a Columbus physician for the benefit of his nerves.

He was stricken in an open lot while going from the home of his mother to an adjacent field where a barn is being constructed. It is thought that he will recover.

The vigor of youth for the old and infirm is in Walther's Peptonized Port. to allay all troubles incident thereto.

REV. FATHER MONTAG.

Columbus. Nov. 15—Rev. Father J. G. Montag pastor of St. Joseph's church at Ironton, died last night at St. Francis hospital after three weeks illness with pneumonia and nervous prostration. He was 49 years old.

AN ENGLISH AUTHOR WROTE:

"No shade. no shine. no fruit. no flowers. no leaves.—November!" Many Americans would add no freedom from catarrh, which is so aggravated during this month that it becomes constantly troublesome. There is abundant proof that catarrh is a constitutional disease. It is related to scrofula and consumption, being one of the wasting diseases. Hood's Sarsaparilla has shown that what is capable of eradicating scrofula, completely cures catarrh and taken in time prevents consumption. We cannot see how any sufferer can put off taking this medicine, in view of the widely published record of its radical and permanent cures. It it undoubtedly America's Greatest Medicine for America's Greatest Disease—Catarrh.

MRS. HERVEY

Wife of Dr. George Hervey of Mt. Vernon Died Friday Leaving a Little Baby.

Mt. Vernon, Nov. 15—Mrs. George E. Hervey, died at the residence of her mother, Mrs. W. C Cooper Friday afternoon of bowel complications.

On November 5th a child was born to Mrs. Hervey, and she got along nicely until the early part of this week when a complication of troubles arose, which caused her death.

Mrs. Hervey's maiden name was Sarah Craig Cooper, and she was a daughter of the late Col. W. C. Cooper She was 31 years of age and was born in this city and lived here all her life. On July 17, 1901, she was marrried to Dr. Hervey. Dr. Hervey, the dentist formerly lived at Granville He is a son of Dr. D. B. Hervey who is well known in Newark.

She was universally esteemed, and the news of her death will cast a gloom over the community.

"The Old Homestead."

Messrs. Charles and Edward Schaller, the hustling and popular proprietors of the "Old Homestead" restaurant, on West Main street, have made some very desirable improvements in their dining hall. The entire hall has been newly papered and painted and now presents a beautiful and attractive appearance. A new gas stove has been placed in the room, the old screen has been removed and a lighter one has been put in its place and handsome new curtains have been placed in the windows. Altogether the room has been completely remodeled and presents a very handsome appearance. Regular meals will be served at all hours at the very moderate price of 25 cents, and as everybody knows, the cuisine of the "Old Homestead" is unsurpassed. 11-14-d8t

The Wooster contingent is "rooting" loyally for their representatives to triumph over the Denison boys, and there is more excitement on Beaver field than has been seen in Granville for a long time.

RECEPTION

Given to New Members of the Newark Y. M. C. A. Friday Evening November 14.

The "Membership Club" of the Y. M. C. A. gave a reception last night to the new members secured the past month and to their young men friends Each of the thirty members of the club handed out six cards of invitation to as many young men. Over half of these were accepted and last night the Y. M. C. A. building was enlivened by their presence.

As early as seven o'clock the young men began to arrive. Members of the club met them and showed them the priveleges of the association.

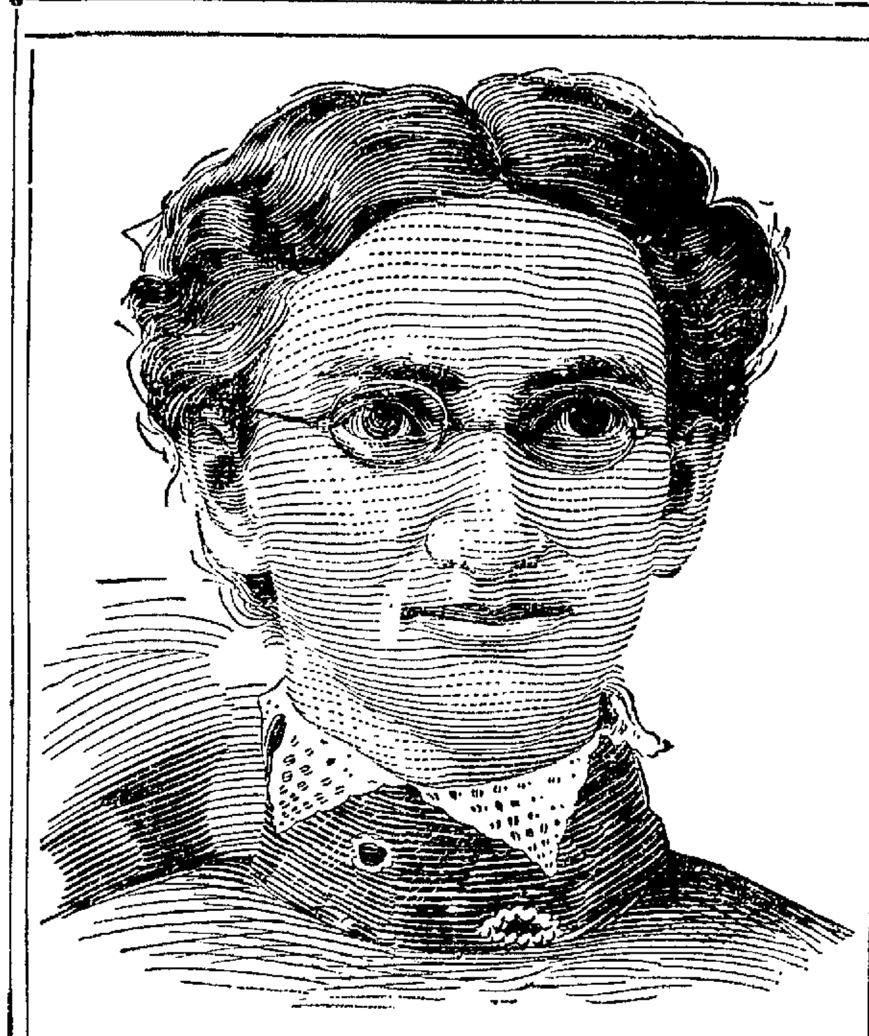

The regular gymnasium class work was conducted on the gymnasium floor and proved a great attraction to the visitors while various games kept others busy in the rooms upstairs throughout the evening. Perhaps the most enjoyable feature of the evening was the music rendered on the Chase and Baker piano player, which Mr. Rawlings very kindly loaned the association for the evening and which Mr. Evans, a member of the glee club operated to the delight of all

Light refreshments consisting of pop corn balls and punch were served

The evening seemed to be greatly enjoyed by all The membership club would do well to hold other similar receptions during the year.

THIRTEEN DOCTORS FAILED.

Mrs. M. A. Close, of Nebraska, Was Cured of Incipient Consumption After All Medical Aid Had Failed--Read Her Letter.

MRS. M. A. CLOSE.

Kearney, Neb., July 8, 1900.

Dr. S. B. Hartman, Columbus, Ohio:

Dear Doctor---"I desire to express to you my sincere thanks for the interest you have shown in my case, and for the timely aid and advice which has effected a cure of as bad a case of consumption as could be well imagined.

FOUND HERSELF GROWING WORSE.

"Peruna and Manalin have done what thirteen of the best physicians in the country have failed to do. For more than three years I doctored for consumption, and spent thirteen weeks in a Pulmonary Sanitarium at Milwaukee, Wis.; but finding myself growing worse, as a last resort, I came West where I was bedfast for many weeks, and the physicians which my husband called gave no hope but said, 'She cannot possibly live more than a few days.' But thanks to Peruna, I fooled them all. In an incredibly short time after I began to take Peruna the hemorrhages stopped. I began to mend slowly at first, but the improvement became more marked, and now I can truthfully say that there is not the slightest trace of my old complaint.

"I would have written you a long time ago, but have purposely waited to see if the effect was lasting; and in conclusion I would say, God bless you and keep you with us that you may go on with your work of mercy for many years to come."---MRS. M. A. CLOSE.

P. S.---"I am going to visit friends in Wisconsin who never expected to see me alive again, so please forward mail to me at 579 Pacific street, Appleton, Wis."---M. A. C.

AN OLD COLD

Is Catarrh, and Catarrh Leads to Consumption.

The tendency of catarrh of the head is to pass downward through the bronchial tubes to the lungs. Any one who has had catarrh of the head for a year or more finds the disease gradually progressing downward. In some cases the progress is rapid, and in other cases it is slow; but sooner or later if catarrh is allowed to run, it will go to the lungs and set up the disease known as consumption. It is doubtful if consumption is ever caused by anything except catarrh.

The catarrh usually begins as a cold in the head or throat, and is neglected until it becomes chronic; then it begins to dawn on the victim that he has catarrh. Unless he is very foolish indeed he will not rest easy until the catarrh is entirely cured. Thousands pay no attention to it until it is too late.

Mrs. J. Priest, Lee, Mich., writes:—"I think there is no medicine on earth that excells Peruna. My husband won't take any other. We have tested it and it worked a great change in my son's health last spring when we thought he was going into consumption. We gave him only one bottle and he was all right. I tell everybody about how much good it has done us. My husband says he can't do without it. As for myself it saved me seven years ago from going blind. I could not see to read one word for six weeks. I thought I should surely lose my sight. I commenced taking Peruna and by the time I had taken one bottle I could see to read as well as ever. We think it is a grand medicine."—Mrs. J. Priest.

Use as Much as Needed.

If Peruna is used a cold never becomes chronic, and hence catarrh is prevented. But after catarrh has become thoroughly established Peruna will cure it, but it will take much longer. Even in cases where catarrh has attacked the lungs and the symptoms of consumption have shown themselves, the Peruna will cure. A great many cases of genuine consumption have been cured with Peruna after the patient had been given up to die, as in the case of Mrs. Close.

Miss Corinne Gilmore, 193 Vance St., Memphis, Tenn., uses Peruna for colds and catarrh.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

PEPSIN SYRUP CO. Chicago, Ill.,
Monticello, Ill. December, 1901.

Gentlemen,—A couple of years ago, while experimenting through the South, I found that by spending a part of my time in marshy neighborhoods filled with miasma, my entire system was being slowly poisoned. I had chills and fever, ached all over, lost appetite and sleep. The doctor told me that I had malaria, and quinine was prescribed. I took it for two weeks and as I kept getting worse, decided to change treatment. I spoke to a friend about my condition. He said that he had some of

Dr. Caldwell's (Laxative) Syrup Pepsin

that he wished I would try. I used it for three days and felt better, and sent for six bottles and used them while in camp. It acted like magic in driving the poison out of my system, cleansed my blood, restored my appetite, and I am now in perfect health. I keep it on hand and find that an occasional dose keeps me well. Very truly yours,
P. BRADFORD PERKINS, 3213 Wabash Ave.

Hon. P. B. Perkins is inventor of the Perkins Water System, used in several of the largest cities in the U. S. He is now experimenting in New Mexico on behalf of the Atchison, Topeka & Santa Fe R. The Old Reliable

Our Goods are as Advertised.

For eight years we have given the people of Newark more goods and better results for their money than any other shoe house in the city. Why can we do this? One, and the only reason is because we buy our shoes right. At all times we have a buyer in the Eastern markets watching every opportunity to secure our stock at as low a price as possible. And then we are willing to give our patrons the benefit of it, and sell them out at almost the same price as other dealers buy them for. We have just received a lot of new samples that go at prices as quoted.

MISS SARAH FINLEY,

Vice-President of the Palmetto Club, Memphis, Tenn.

Miss Sarah Finley.

WINE OF CARDUI is a thoroughly scientific and modern remedy, meeting the needs of the modern woman in the modern way—without the torture of an operation. Wine of Cardui has cured them in the privacy of their homes and it has found a place in the hearts of American women that no other medicine has found. In their gratitude over 10,000 American women have written letters commending Wine of Cardui. Wine of Cardui meets their wants as no other medicine does. It sustains the young girl at the shock of her entrance to womanhood. Women who take Wine of Cardui have little discomfort during pregnancy and little pain at childbirth. When the change of life appears they enter a happy, healthy old age. Every month it comes to the rescue to assist Nature in throwing the impurities from the body.

Miss Sarah Finley, of Memphis, Tenn., vice-president of the Palmetto Club of that city, speaks for herself and many friends when she bestows the following praise on Wine of Cardui:

"Among the numerous medicines placed before suffering women for their relief none can touch McElree's Wine of Cardui. It towers above them all as a reliable female remedy. It simply drives pain and disease away and restores health in an incredibly short period. I have taken great interest in this medicine for the past two years, since it brought health and strength to me. I have also recommended it to a number of my friends and they who have used it speak of it in the highest terms and I feel that it is praise well bestowed."

If you are suffering from female weakness Wine of Cardui is the medicine you need.

You can have health the same as Miss Finley if you will take the Wine of Cardui treatment. If you need advice further than the complete directions given on the bottle, address The Ladies Advisory Department, Chattanooga Med. Co., Chattanooga, Tenn.

NEW STORE

In One of Rooms Just Vacated by Ed. Doe—Five and Ten Cent Goods

A new and strictly up-to-date Five and Ten Cent Store is the latest addition to Newark's business circles. The new store, of which Mr. H. G. Dodds of Pittsburg is the proprietor, will be located in room No. 7, formerly occupied by Ed. Doe, in connection with his clothing store, on the West Side of the Square. The store will be under the management of Mr. E. H. Slaughenhoupt of Pittsburg, formerly manager of the J. G. McCrorey Five and Ten Cent store of Jamestown, N. Y., and who was later with the Titus Supply company of 324 Liberty street, Pittsburg, Pa., for three years as a general manager. The Titus Supply company, by the way, will supply the Newark store with all its goods. The company has about forty-five of these Five and Ten Cent Stores scattered over the country, and are consequently buying large quantities of goods at all times, which enables it to give the people bargains. Mr. Slaughenhoupt already has his family here, and will make this his permanent place of residence. He says they expect to handle everything in the line of dry goods, hardware, tin ware, granite and glassware, stationery and confectionery. In fact all kinds of goods usually found in a first-class, up-to-date Five and Ten Cent store, will be kept on hand. The store will open to the public on Wednesday morning, at 8 o'clock.

RIVER TO BEAR A TOWN.

Benton, Neb., Will Be Floated Down a Stream.

The village of Benton, Neb., located a few miles from Lexington, Neb., has decided to move. This does not mean the people alone, but the buildings, houses and stores, besides all the personal effects, will float down the Platte river for three miles to a location which the villagers prefer to its present one, says the Chicago Tribune. Nothing will be left behind but the natural scenery which was there when the village was built.

"If the railroad will not come to me, then I will go to the railroad." Such is the paraphrase of the story of Mohammed and the mountain as given by the village of Benton.

The decision to move came with the announcement of the Union Pacific railroad that a new town named Darr would be established at the point where the line crossed the Platte river. This is three miles down stream from the present group of houses called Benton. The railroad added to its announcement that the construction of a large elevator and mill would be immediately started at Darr. When an agent of the Union Pacific presented the matter in the right light, the population of Benton saw that they were living in the wrong place, and they decided to move and be on the ground floor of the new town. Then it appeared to them that it would not be such a bad idea to take the town along with them.

Benton was built on its present site many years ago, with the expectation that when the railroad came that way it would pass through the town. Finally, when the railroad did come, it was found impracticable to go nearer than three miles. As a compensation the officials of the Union Pacific road offered inducements to the people of Benton to move to the town which they propose to start and call Darr. This proposition was accepted. The new town is in the center of a rich agricultural country and will draw on territory for miles around. The Platte valley at that point is nine miles wide to the north and seven miles wide to the south.

STRENGTH OF OUR GOVERNMENT.

Whitelaw Reid Tells Wherein Its Great Power Lies.

RESPECT FOR AUTHORITY NEEDED

This and the Widest Liberty of Individual Initiative Are the Sources, He Says, of National Strength—Some Inconveniences In Our Form of Government Pointed Out.

The Founder's day celebration in Carnegie's hall at Pittsburg attracted an immense throng the other afternoon. The address was made by Whitelaw Reid, editor of the New York Tribune. Mr. Reid spoke on the subject, "The Government—Wherein Lies Its Great Strength?" and said in part as follows:

"We all believe in our form of government. In fact, we are intolerant believers in it. Every child learns to think that it is the best in the world, not only for us, but for all men. Every demagogue learns to bellow first from the cart tail his unlimited, unquestioning certainty of that superiority and universal applicability.

"I am not here to dispute the belief—only to define the facts about it. If our form of government is the best, it cannot be so because it is the cheapest. On the contrary, it is one of the most expensive in the world, with more paid lawmakers than any other, higher salaries generally for subordinates, though with very unworthy scrimping in some of the most important places like the judiciary, higher pay on government contracts, more lavish appropriations for internal improvements and the costliest army in proportion to number and work.

"Our form of government cannot be the best because it is the most efficient. On the contrary, it is one of the slowest in the world, the most complicated, cumbrous and limited. Our foreign representatives have been again and again humiliated by appeals from citizens abroad whom we could not or did not protect against impressment, with our passports in their hands, into the military service of other countries. Every few years we are all humiliated before the world because of riotous outrages on Italians or on Chinese or on other foreigners, which some state has not suppressed or atoned for and the nation has no adequate control of. This very year there could be found for five months no power in the state of Pennsylvania or in the United States to stop disorder and riot in the coal mines, and finally that imperative work had to be done by voluntary effort outside the constitutional processes or authority of the high office that successfully intervened.

"Even within the spheres in which it will work our form of government is not the easiest to work. On the contrary, it requires, to keep it running successfully, more public spirit, more study about candidates, more time for multitudinous elections, local, state and national; more watchfulness of public officials, and a higher average of intelligence than any other in the world, and no one has ever shown that without this alert and devoted public spirit, this unremitting attention and this high average of intelligence it could have achieved its best successes or could now maintain them. Some of our states repudiated their public obligations, and it took vehement and long continued efforts to get the disgraceful action reversed."

Mr. Reid said the men who formed the government had no notion of its universal applicability and in this connection remarked:

"Not until 1865 was it even established throughout the United States that every man has the right to sell his own labor, and in 1902 in your state and in mine there were still found a great many men, including a pitiful number of exceptionally ignorant or emotional clergymen and some people called statesmen, who considered such a right so doubtful that they were not ashamed to urge, for the sake of peace and coal, that it should be submitted to arbitration."

Proceeding to answer his own question, "Wherein lies its great strength?" Mr. Reid said:

"The answer has become a truism. Its strength lies in the quality of man it develops. The real merit is not in the machinery, but in the skilled intelligence absolutely required to frame and to work it; in the combination of respect for authority on the one hand with training in individual initiative on the other, which this work brings out and which the government has thus far scrupulously and religiously guarded.

"We brought the respect for authority from the birthplace of the common law, and in proportion as injustice from its officers was resented in the old home, in like proportion the law itself was instinctively elevated into a veritable pillar of cloud by day and of fire by night in the wilderness of the new world. We found the individual initiative in the necessities of an untamed continent: were driven to it, shut up to it at every turn—in the imperative beginning of orderly self government at a thousand isolated spots, in the long protracted struggle with wild lands, wild beasts and wild men—till it became the inheritance of the race. To such a continental conquest of nature and of men have those two traits of the fathers brought us—their respect for authority and their widest freedom of individual initiative. These, with the original vigor of the stock, have made Americans what they are. Whoever or whatever now dares to interfere with the permanent union of these two traits and their continued development in the American life is an enemy to the republic, whether known as political boss or as trust or as trades union.

"But let me not be misunderstood. Nobody can doubt the need in politics of appliances for finding and enforcing the will of the party majority. Nobody can question the public benefits in business from great consolidations of capital. Nobody can deny the right of labor to combine for higher wages and shorter hours and healthful conditions of work. I mean no arraignment of organization itself, either in politics or finance or labor—only of that tyrannical organization, that unrepublican organization, that abandonment of the underlying essentials of democratic success and that reversion to the principles of an absolute monarchy or a military despotism which refuses to recognize that it has reached the limits of its own right when it invades the rights of others and so saps the very springs that have lifted us to this floodtide of national prosperity."

The speaker went on to urge that the impression that it was impossible to rise under existing conditions was "the most dangerous delusion of the times, undermining the foundations alike of industrial progress and of public honesty, and its only logical outcome is either a permanent and unrepublican fixity of classes or the hopeless Dead sea of socialism." He went on to cite the cases of men who have risen to distinction from the ranks and declared:

"The chances for the young man are and must be kept as good today as they ever were—in fact, they are and must be made as much better as the scale on which this western world is moving grows yearly and monthly more colossal. But now, as in all past times, with political managers or in spite of them, with trusts or in spite of them, with trades unions or in spite of them, the chances are to him that can see and seize them, the tools are to him that can use them. 'A man's a man for a' that.'

"Strong as this republic is, it is not strong enough—let us hope it will never be unjust enough— to let either labor shut any of its children out of learning a trade or capital shut any of them out of going into trade. You cannot preserve the triumphant democracy and insure the American future unless you preserve the American citizen in his habit as he was, revering the law, respecting authority and beyond that still limited in his free activities by no master below God."

GLOBE GIRDLING MESSAGE.

First One Sent by the New British Pacific Cable.

Charles J. Glidden of Boston, former president of the Erie Telephone company, recently sent the first cable message around the world by way of the new British Pacific cable, establishing a record of thirty-nine hours and twenty minutes, says the New York Tribune. He started a dispatch addressed to himself from the Hotel Touraine at 9:15 a. m. It read as follows: "Boston, Mass., via Vancouver British cable to Australia around the world."

It took its place with the ordinary commercial business and was received in Boston by the Western Union at 12:35 a. m. next day, thirty-nine hours and twenty minutes after it left Boston. Only three errors were made, the message arriving, "Gleddon Boston, armund the world," dated at Southport, Australia.

New Two Cent Stamp Issue.

The bust of Washington, drawn from Jean Antoine Houdon's profile cast, which has so long appeared on the two cent stamps, is replaced in an issue now printing by a photographic reproduction of the Gilbert Stuart portrait of Washington that is in the capitol, says the Washington Post. The United States flag will also appear on the stamp for the first time since 1869.

Coming Home For Thanksgiving.

I tell you it is busy times jest now for me and marm;
The boy is comin' home to spend Thanksgivin' on the farm.
'Tis ten long years since he went west to mingle in the strife;
He's done first rate, and, furthermore, he's got a western wife.
We got the letter yesterday, and marm she laid awake
Full half the night to praise the Lord and think what she must bake.
If I should feed the turkey now, as she declares I must,
Why, long before Thanksgivin' he would swell all up and bust.
I've had to grind the choppin' knife and go to choppin' mince,
And things are brewin' rich and fine and fit to feed a prince.
The boy he writ for chicken pie, "With double crust," says he,
"And mixed with cream, that lovely pie you used to make for me."
He wants a big red apple from the hillside Northern Spy
And butternuts; I've got 'em round the stovepipe, brown and dry.
He wants to lay the fire himself with maple hard and sound
And pop some corn upon the hearth when all are gathered round.
He wants the things he used to have when he was but a lad:
'Tis somewhat strange, it may be, but it makes us mighty glad.
We're both a little whiter, but our love, depend upon't,
Is jest as green and striddy as the hills of old Vermont.
It flustered marm a bit at first about the western wife,
What she should do for one so fine and used to city life.
But tucked between the boy's big sheets she found a little slip;
She read it with a happy tear, a gently quivering lip:
"Dear mother"—them's her very words—"I write this on the sly.
So don't tell John, but make for him a big, big pumpkin pie.
I know it will delight him, for he still is but a boy—
His mother's boy—and so he fills his wife's glad heart with joy."
And so, you see, 'tis busy times jest now for me and marm:
The boy is comin' home to spend Thanksgivin' on the farm.

A Bonbon Box Novelty.

The new bonbon box of the season is a football. It is a small affair, the color of a football. The top of the cover has a football scene, a player kicking the ball, the pennant in the scene being of silk and flying out from the top of the box. These pennants are in different colors for the different colleges.

AN OLD FAVORITE

SWEET LOVE REMEMBERED.

By William Shakespeare

HEN in disgrace with fortune and men's eyes,
I all alone beweep my outcast state,
And trouble deaf Heaven with my bootless cries,
And look upon myself and curse my fate,
Wishing me like to one more rich in hope,
Featured like him, like him with friends possessed,
Desiring this man's art, and that man's scope,
With what I most enjoy contented least;
Yet in these thoughts myself almost despising,
Haply I think on thee, and then my state
(Like to the lark at break of day arising
From sullen ear(h) sings hymns at heaven's gate.
For thy sweet love remembered such wealth brings,
That then I scorn to change my state with kings.

THE SIEGE OF BELGRADE

An Alliterative Poem

Author Unknown

N Austrian army, awfully arrayed,
Boldly by battery besieged Belgrade.
Cossack commanders cannonading come,
Dealing destruction's devastating doom.
Every endeavor engineers essay.
For fame, for fortune fighting,—furious fray!
Generals 'gainst generals grapple—gracious God!
How honors Heaven heroic hardihood!
Infuriate, indiscriminate in ill.
Kindred kill kinsmen, kinsmen kindred kill.
Labor low levels longest loftiest lines:
Men march mid mounds, mid moles, mid murderous mines;
Now noxious, noisy numbers nothing, naught
Of outward obstacles, opposing ought;
Poor patriots, partly purchased, partly pressed,
Quite quaking, quickly "Quarter! Quarter!" quest.
Reason returns, religious right redounds.
Suwarrow stops such sanguinary sounds.
Truce to thee, Turkey! Triumph to thy train.
Unwise, unjust, unmerciful Ukraine!
Vanish, vain victory! vanish, victory vain!
Why wish we warfare? Wherefore welcome were
Xerxes, Ximenes, Xanthus, Xavier?
Yield, yield, ye youths! ye yeomen, yield your yell!
Zeus', Zarpater's, Zoroaster's zeal,
Attracting all, arms against acts appeal!

SOUL OF SOCIALISM.

BLISS CARMAN SAYS IT IS TO BE FOUND IN CHRISTIANITY.

There Are Divers Kinds of Socialism, but They All Aim to Benefit Society—A Somewhat Sweeping and Liberal Definition.

Socialism is a very safe word. Its meaning is so vague and undetermined for the most part that even the conservative take it upon their lips without trepidation. They speak indulgently of socialists as erratic and harmless dreamers, lumping together their many different aims and creeds, much as one speaks of all manner of insects as "bugs."

But the truth is that every one is something of a socialist, and many of our institutions are purely socialistic. Free schools, for instance, and free libraries (where they really belong to a township of free people and are not the gift of well meaning but offensive and misguided affluence) are purely socialistic. They exist for the good of all and are supported by the contributions of all, though there may be some to whom they are of no value and by whom they are not wanted. Never mind, we must have them, for the sense of the community has decided they are good things. If you have no children to be educated and are a hater of books, it is just the same. You must put your hand in your pocket to buy books for your neighbor and educate his children. That surely is pure socialism. Also it is pure Christianity.

And that brings me to the point I wish to make—namely, that the soul of socialism is love, or Christianity, if you prefer that word. The divers kinds of socialism are as mushrooms in the morning. They spring up fresh every day until it seems that every man may be his own prophet in matters pertaining to the commonwealth. Yet all these schemes are alike in aim; they all have for their sole object the betterment of society. However foolish, however wrong headed, however visionary or even dangerous they may be, we must still credit them nearly always with nobility of purpose and sincerity of intention. They are so many formulas for the solution of a difficult problem in the science of life, and though many of them would not solve the perplexing equation for us at all, but would only make matters worse (in all probability), still their disinterested aim must enlist our sympathy even while we withhold our approval. That is to say, the spirit that prompts them is all right, though the thought that goes to their construction is often so faulty.

For socialism in whatever form is, after all, only an ingenious device for putting in practice the generous impulses of the human heart. Socialistic schemes are just so many contrivances for the carrying out of our nobler purposes. In themselves they cannot directly foster goodness; they can only promote it by making its path easier. Under right social and industrial conditions it will be easier to be good than it is now; it will be easier for beauty to touch our everyday life; it will be easier for the truth to find us out and cheer us with illumination.

One would not call the constitution of the United States a socialist document, I suppose, and yet it certainly is an instrument invented to facilitate the betterment of mankind in its social state. The American Revolution, like the French revolution, like the great rebellion in England, has no other meaning than that, and the mistake we make in thinking of these movements is in putting our final trust in them rather than in the spirit of freedom and love in man which produced them. However great and important these events were, they were, after all, only so many steps in this direction or that. We believe in this country that a democratic form of government is better than older, more primitive forms. It is not therefore necessarily the best form. It may be itself but a step to another form still better which will bring us still more enlightenment and happiness. We must be careful not to make a fetich of it, as our fathers made of monarchy long ago. It is the tendency of conservative minds to respect the settled institution, the traditional ideal. Old institutions and established ideals are indeed to be respected, but they are not as much to be respected as the spirit of humanity which begot them. They are only inventions of the mind of man pondering on some plan to give his soul vent in free and beneficent action. It is our business to maintain and guard them only so long as they prove effective for that and to relinquish them without regret as soon as we outgrow them and find them hindering our progress or retarding our happiness. We shall have others in their stead more ample, more adequate, more nearly perfect and no less worthy of loyalty than they were.

And if we are not to have too great and inflexible a respect for authority and traditional institutions neither must we be overconfident of the newest plans of social management of our own devising. They, too, we must remember, are only methods or ways of doing things. And the great permanent fact to be remembered and reverenced is the spirit of love which prompted us human creatures from the first. If we are to respect the remembrance of it in those of past ages, surely we must so much more respect it as a living breath in ourselves.

No form of government ever yet devised has been equal to the task of making men perfectly happy. None ever will be, for the simple reason that men are not made happy by outward conditions alone but by the inward condition of their hearts as well. And if we pin our faith to this or that outward social institution we are necessarily disappointed. The more stable the institution the more quickly does it become insufficient. It remains fixed, but man grows. Let us fancy that some very admirable and sound social reform, like the single tax, for instance, could be put in operation. There is no doubt that we should all derive untold benefit from it. We should be freer, happier and saner as a people than we have ever been. But we should still be far from being perfectly happy unless we were sedulous in cultivating our spiritual selves and in giving effectiveness to our best personality. Socialism, in other words, is only an opportunity to live. It is not life. And we must beware of expecting too much from it. Were it once in operation we should still have our toil and our leisure, our joys and our sorrows, just as we do now. Our toil and our sorrows would be mitigated, we believe, and our joys and our leisure would be more widespread, but the same old problem of the conduct of life would still confront every mortal alive.

It seems to me, then, very evident that while we are giving our energies to the accomplishment of social progress, to the realization of socialism in some form, we should be careful to hold hard by the spirit of the matter. Let us be socialists by all means of one kind or another, but let us be loving men first of all, for what we are fighting for in socialism is only the chance for loving kindness to make itself felt, for whether we call it love or loving kindness or Christianity does not matter so long as we preserve the spirit itself and make it effective, only if we call it Christianity we must take care not to confound it with any formalism of creed or church, for the churches also are only social institutions, outward expressions in which various truths have been embodied and too often entombed. But Christianity, let us remember, is an attitude of mind, a habit of feeling, a condition of the soul; it is not an institution. And the very gist of Christianity may quite as readily be embodied in socialism as in any formal church, and socialism whenever it appears in any sincere guise always has an aim in accord with Christianity—it aims at giving more freedom to the spiritual side of man, it aims at putting man's life under such outward conditions that he can practice virtue more easily and find happiness more readily in this life. Christianity blazes the trail for man. Socialism cuts down the trees and makes the road more open and practicable. This is something of what I mean by saying that Christianity is the soul of socialism, and I don't believe it is very far wrong.—Bliss Carman in New York Commercial Advertiser.

THE LEADERS.

A Fable.

The Horses were penned up in a corner of the field. Colts were born, and space became less obtainable. The condition was pitiable.

They whinnied and kicked and starved in the pens.

"We must strike," said the Horses, "for better food."

Said Mr. Carlyle, "A kind, strong Bull is needed for a ruler."

The Bull prodded them with his horns.

"We are becoming a great people," said the Horses, yet many of them died of their wounds.

"What you really want," said a Philhipposist, "is better tenements." So he put some boards over the pen, for the use of which he charged a fee. "These," said he, "will pay me 5 per cent."

Said Mr. Ruskin, "A great, wise, good Ox is needed for a leader." The Ox led them all around the pen. The Horses stopped kicking and said, "We are making material progress." Yet many more died of hunger.

"If we had hospitals now," said the Horse Doctor, "we could operate on the sick ones."

"A new system is needed for a democracy," said Mr. Bellamy. The system crippled them with its regulations. "We are realizing the ideal," said the Horses, and they grew stupid and fat.

"It is more instruction they need," said the president of the Society For the Suppression of Nature. "Sixteen per cent of these Horses are penned up on account of causes indirectly due to misconduct."

"A new gospel is needed for liberty," said Truth, but the Horses turned longingly toward the pens because they were horses.

Said a Fence Builder, "We have only to teach these Horses to walk on their hind legs; then they will not take up so much room."

But when the Horses learned to rear up on their hind legs they saw over the fence, and—

The Duty of Good Union Men.

In a factory where 1,500 men work their labor union made an unreasonable demand of the owner. The next day a number of old men went to him and said, "We are sorry that the union did this, and we want you to know that we were not at the meeting."

The owner replied: "Then you are to blame for it. You belong to the union properly, and it is your duty to attend its meetings. If all the best men had attended the meeting, the action of the union would have been wiser. Any demand that all the men in the shop make after careful deliberation is likely to be a reasonable demand."

Then he went on: "Labor unions sometimes have had bad government for the same reason that cities have it. The best men do not vote. To be of use the union should comprise the best men, and they should attend its meetings and direct its conduct."

Such an incident as this tells its own story and carries its own moral. The more you think of it the wiser the owner's conduct seems. He has never had a strike.—World's Work.

TO FIGHT LABOR UNIONS.

Significant Letter of President of Association of Manufacturers.

The National Association of Manufacturers of the United States of America, through a circular letter being mailed to every manufacturer in this country, declares for war on organized labor and its aims and objects. Particular stress is laid on the efforts of labor to secure the passage of an eight hour day law before congress, which is called "vicious." Recipients of these letters are asked to become members of this Manufacturers' association, and the arguments advanced are because the organization is engaged in a "bitter uphill fight against the unlawful demands of organized labor."

The letters bear the signature of David M. Parry of Indianapolis, the president, and read:

Dear Sirs—I desire to call your attention to the significant growth of the National Association of Manufacturers. During the months of June, July, August and September, the most difficult months of the year for new business, our association has made the gain of 225 new members. This striking increase is the result of the profound belief that is growing in this country that there must be a closer union among manufacturing employers or in a few years we shall be so enmeshed in hostile legislature that our power to advance will be practically destroyed.

There are now pending before congress two bills either one of which is a serious menace to the manufacturing interests of the United States. These bills are the anticonspiracy and eight hour measures. The first, imported to this country from England, has been favorably reported in the senate. It means that your establishment may be "picketed" out of existence in case of labor trouble. The second is intended to be an opening wedge for a general eight hour day throughout the United States. This bill provides that any manufacturer contracting with the government shall not be permitted to work his employees over eight hours without subjecting himself to a fine of $5 for each and every employee for each calendar day. This monstrous measure has passed the house three times without one word of debate. If forced through the senate this session, it will be followed by similar bills in each of the states. This is the labor programme.

What are the manufacturers of the United States to do about this? Are we to sit still and do nothing, or shall we meet organization with organization? I consider organization our only salvation. What is your opinion? If 500 men in your shop appeal to a congressman to vote for a certain bill, what is your voice against the 500 unless you have organization?

Shall there not be in this country one great, compact organization of diversified manufacturing interests which shall stand together as a man against the encroachment of organized labor? Is it not time to bury all feelings of clashing commercial policies and get together on a platform upon which we all can stand? Is not our first duty self preservation? All other questions that press upon us can in the end be disposed of by the exercise of wisdom, fair play and firmness of purpose.

I say to you that the time has come in the United States when we have reached the parting of the ways. You are either to have the mastery of your own business or you must turn part of its administration over to your employees. Organized labor claims 1,700,000 members. Each member pays 6 cents yearly for the maintenance of a powerful lobby at Washington to secure the passage of measures opposed to your interests. The total of this fund, measured by the simplest arithmetic, is $102,000 per year. What fund has the manufacturers for defense of their interests? None. Shall this continue?

The National Association of Manufacturers has no ax to grind except that of the protection of employers. No officer of our association receives a dollar in salary except the secretary. The presidency means a personal expense to me of $5,000 each year. When the danger signal is flashed, the members of the legislative committee hurry to Washington, paying their own expenses. We are fighting your battle.

Yet to carry on the fight successfully we must grow in strength and power. We must have money for postage stamps, literature, rent and to pay salaries of some thirty employees of the association, who earn money by the severest work. Do you not feel that you should help us?

I inclose you subscription blank filled out to myself. It requires your signature. I shall consider it a personal honor if you will sign and return it to me. Whether you come with us or not, please let me hear from you.

The "E. and E. Union."

Another solution of the labor question has been discovered. The latest discovery is by a manufacturer of a cereal food that is warranted to put gray matter into the heads of brain workers and put strength into the muscles of athletes and workers. The solution is to be brought about by what this manufacturer styles the "E. and E. union." In this "union" a contract is entered into between the employer and the employee for six months or a year at a rate mutually fixed. The employer deposits a satisfactory bond in the hands of the treasurer of the union equal in amount to $25 for every employee, and each employee deposits each pay day 2 cents on the dollar of his pay until he has deposited with the treasurer of the union the sum of $25. If the employer does not keep his agreement, he forfeits $25 to the employee, and the employee likewise forfeits out of the sum he may have on deposit up to $25 if he fails to keep his contract.

What's the Use?

What is the use of placing compulsory education laws upon the statute books when necessity forces the child to enter the factory and the mine? Necessity knows no law, and laws will be worthless as long as capitalism owns the powers of government. Strike at the ballot box for labor to receive everything that it earns and the child will be in the school room striving to equip its brain instead of dwarfing its physical and moral nature in the sweat hells of tyranny.—Miners' Magazine.

Due to Unionism.

The history of the bricklayers of this country furnishes a striking illustration of what the trade union does for its members and for the trade. In 1776 bricklayers received 50 cents for fourteen hours; in 1850, $1.75 for twelve hours; in 1902, $4.80 for eight hours—from 4 cents an hour to 60 cents an hour. This union has spent in the past ten years $1,500,000 for benevolent purposes.

IF YOU HAVE PAIN IN YOUR BACK

Do Not Be Deceived. You have Kidney Trouble, and You Do Not Need a Physician to Tell You So.

Pain in the back is an almost infallible sign of kidney disease; a surer sign is the condition of your urine. If you have a pain in the back, then look to the condition of your urine. It is easily done. Take a glass or tumbler and fill it with urine; after it has stood 24 hours, if it has a sediment, if it is milky or cloudy, if it is pale or discolored, stringy or ropy, your kidneys and bladder are in a dangerous condition and need immediate attention, or the consequences may prove fatal. Dr. David Kennedy's Favorite Remedy is the one medicine that really cures all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, and it will take you but a short trial to convince yourself of its wonderful curative power.

G. F. Sammer of No. 409 Tioga street, Syracuse, N. Y., in a recent letter says:

"I was afflicted for years with severe pains in my back and kidneys. I tried many doctors and many medicines, but got no relief. I bought a bottle of Dr. David Kennedy's Favorite Remedy and it has entirely cured me."

It is for sale by all druggists in the ***New 50 Cent Size*** and the regular $1.00 size bottles—less than a cent a dose. *Sample bottle—enough for trial, free by mail.* **Dr. David Kennedy Corporation, Rondout, N. Y.**

Trinity Episcopal.

Sunday evening, at Trinity church, the sacrament of confirmation will be administered by the Right Reverend Boyd Vincent, Bishop-Coadjutor of the Diocese of Southern Ohio, to about twenty persons. The prelate will also preach. The ceremonies of confirmation are very interesting and impressive, and no doubt will attract many besides the regular worshippers. The offerings will be for missionary work in Southern Ohio. Confirmation, known also as the laying-on of hands, is the bestowal of the seven fold gifts of the Holy Spirit, and in a sense is supplemental to baptism. The sacramental rite has been performed by the ministry of the apostolic succession ever since the foundation of the Christian church. It is not a reception into membership, as that act is accomplished by baptism. In the Episcopal church it usually precedes the first partaking of the holy communion, though not necessarily. The class to be confirmed tomorrow night will make its first communion together on the following Sunday at 7:30 in the morning. Bishop Vincent, with the rector of Trinity church and the whole choir, will visit the church at Granville in the afternoon at 3:15 o'clock, leaving here at 2:40 o'clock.

The morning services at Trinity, at 10:30 o'clock will be the Holy Eucharist, with a sermon on the signs of the second advent of Christ. The collect, epistle and gospel will be those pertaining to the sixth Sunday after Epiphany, according to the prayer-book's rule. Following are the musical programes for both Sunday services:

Morning Services 10:30.

Processional hymn, 408 "Jerusalem the Golden," Le Jeune.

Kyric Eleison, King Hall.

Nicenue Creed, Kink Hall.

Hymn 583, "Work for the night is coming." Mason.

The New vs. the Old

For the second time since our short stay of less than two years in this city we have had to remodel and enlarge our quarters to meet the growing demands of our business. We have now one of the largest and best equipped places in the state and are prepared to turn out a high class of work with half the labor and time of the old one horse way. This is why we save our patrons from 50 to 75 per cent in price as well as much pain and time. Open evenings.
